What is Safety?

Safety is a concept that includes all measures and practices taken to preserve the Life, Health, and Environment.

Hazard

The event which has the potential to cause harm to people, property or environment.

Risk

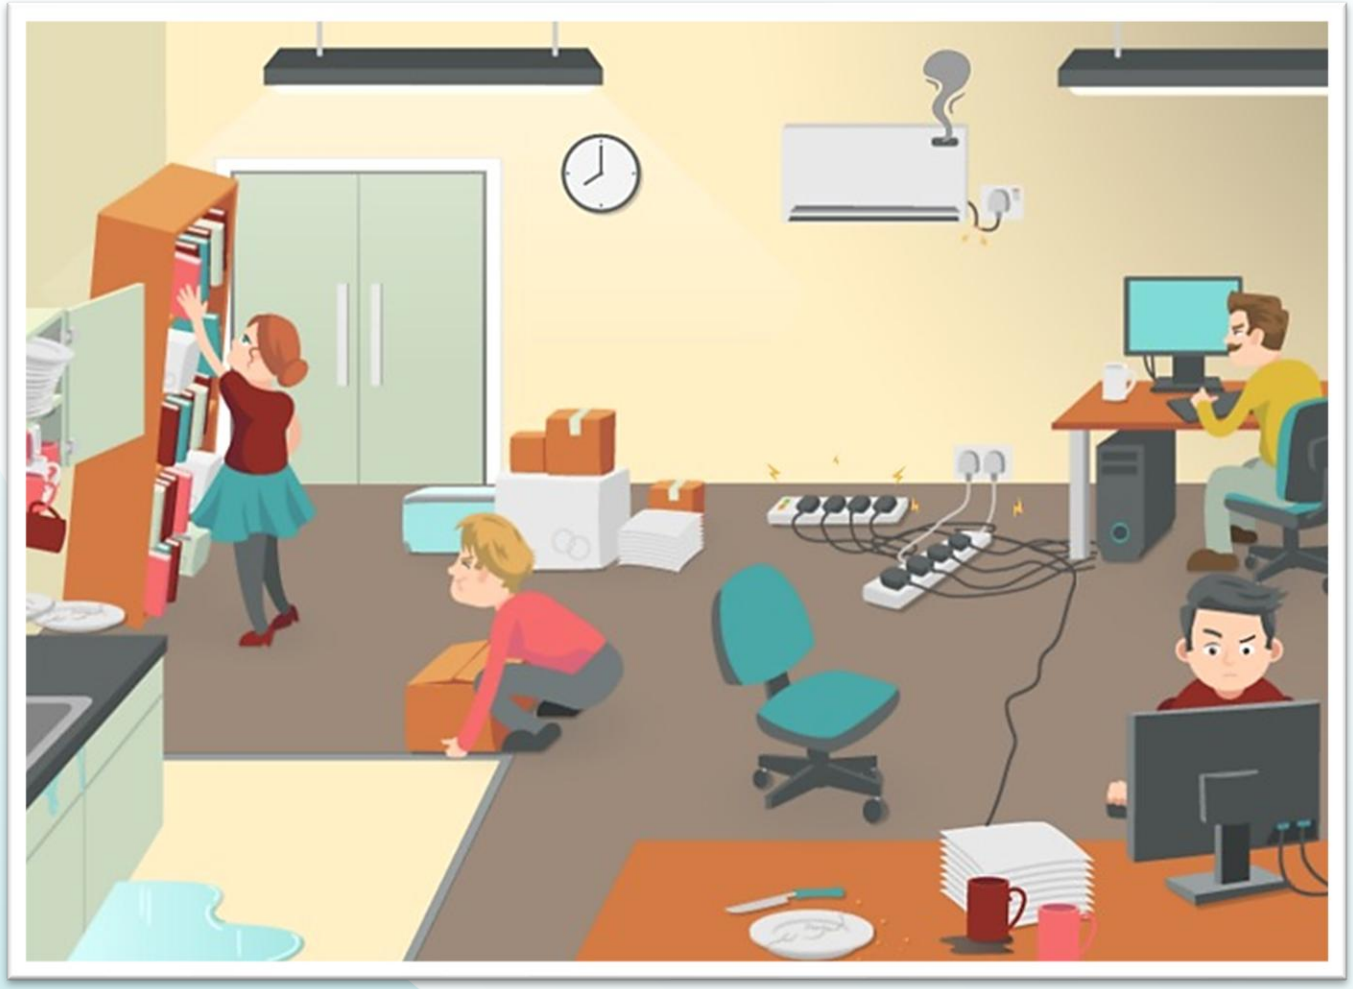

Likelihood (Probability) of a hazard to cause harm X Consequences

Safety Liaisons

Department Safety Liaisons are appointed by their departments to facilitate safety information and comply with the Environmental Health & Safety department.

Question!

How many Hazards & Risks you can spot in this picture?

Emergency Codes

Emergency Codes رموز الطوارئ			
	RED	Fire / Internal Disaster حريق / كارثة داخلية	5555
	YELLOW	External Disaster كارثة خارجية	5555
	BLUE	Cardiac / Imminent Arrest توقف القلب / التنفس	2222
	ORANGE	Hazardous Material Spill / Release انسكاب مواد خطرة	5555
	PINK	A child / infant missing or abduction فقد او اختطاف طفل / رضيع	5555
	BROWN	Utility Failure انقطاع او تأثر في الخدمات	5555
	BLACK	Bomb Threat تهديد وجود قنبلة	5555
	SILVER	Active Shooter with Weapon وجود شخص لديه سلاح	5555
	WHITE	Violent Situation اعتداء داخل المنشأة	5555
	GRAY	Severe Weather طوارئ الطقس	5555
	Hospital Evacuation إخلاء المستشفى		
	End of Disaster نهاية الكارثة		

FIRE TRIANGLE

Oxygen Source: Normal Air Contains 21%0. Fuel May Also Contain Oxygen

Heat Source: Sun, Hot Surface, Sparks, Friction, Electrical Energy

Fuel Source: Can be a Solid, Liquid, or Gas. Here is Some Examples

Solids

Coal, Wood, Paper, Leather, Plastic, Sugar, Grain

Liquids

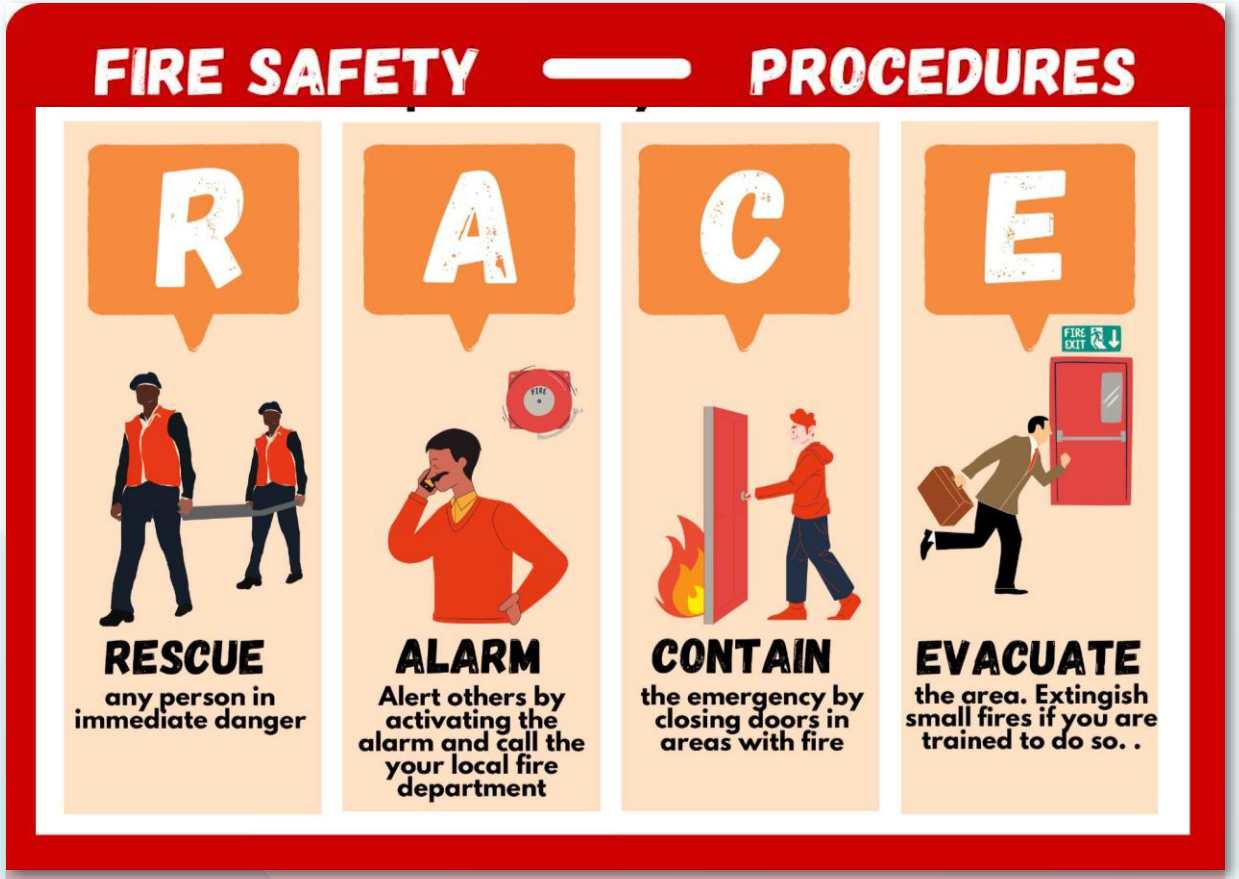

Gasoline, Alcohol, Plant, Olive Oil

Gases

Natural Gas, Propane, Hydrogen, Carbon Monoxide

Sources : AITO

What to do in case of fire?

Rescue!

Rescue patients using Evacuation Tools

Evacuation Chair

Evacuation Slide

Alarm!

Shout Code RED!

Activate the Call Point Alarm

Call the hospital Emergency Number ??

Contain!

Remove Flammable Materials: Oxygen Cylinders

Remove Alcohol Sanitizers

Close the rooms' doors

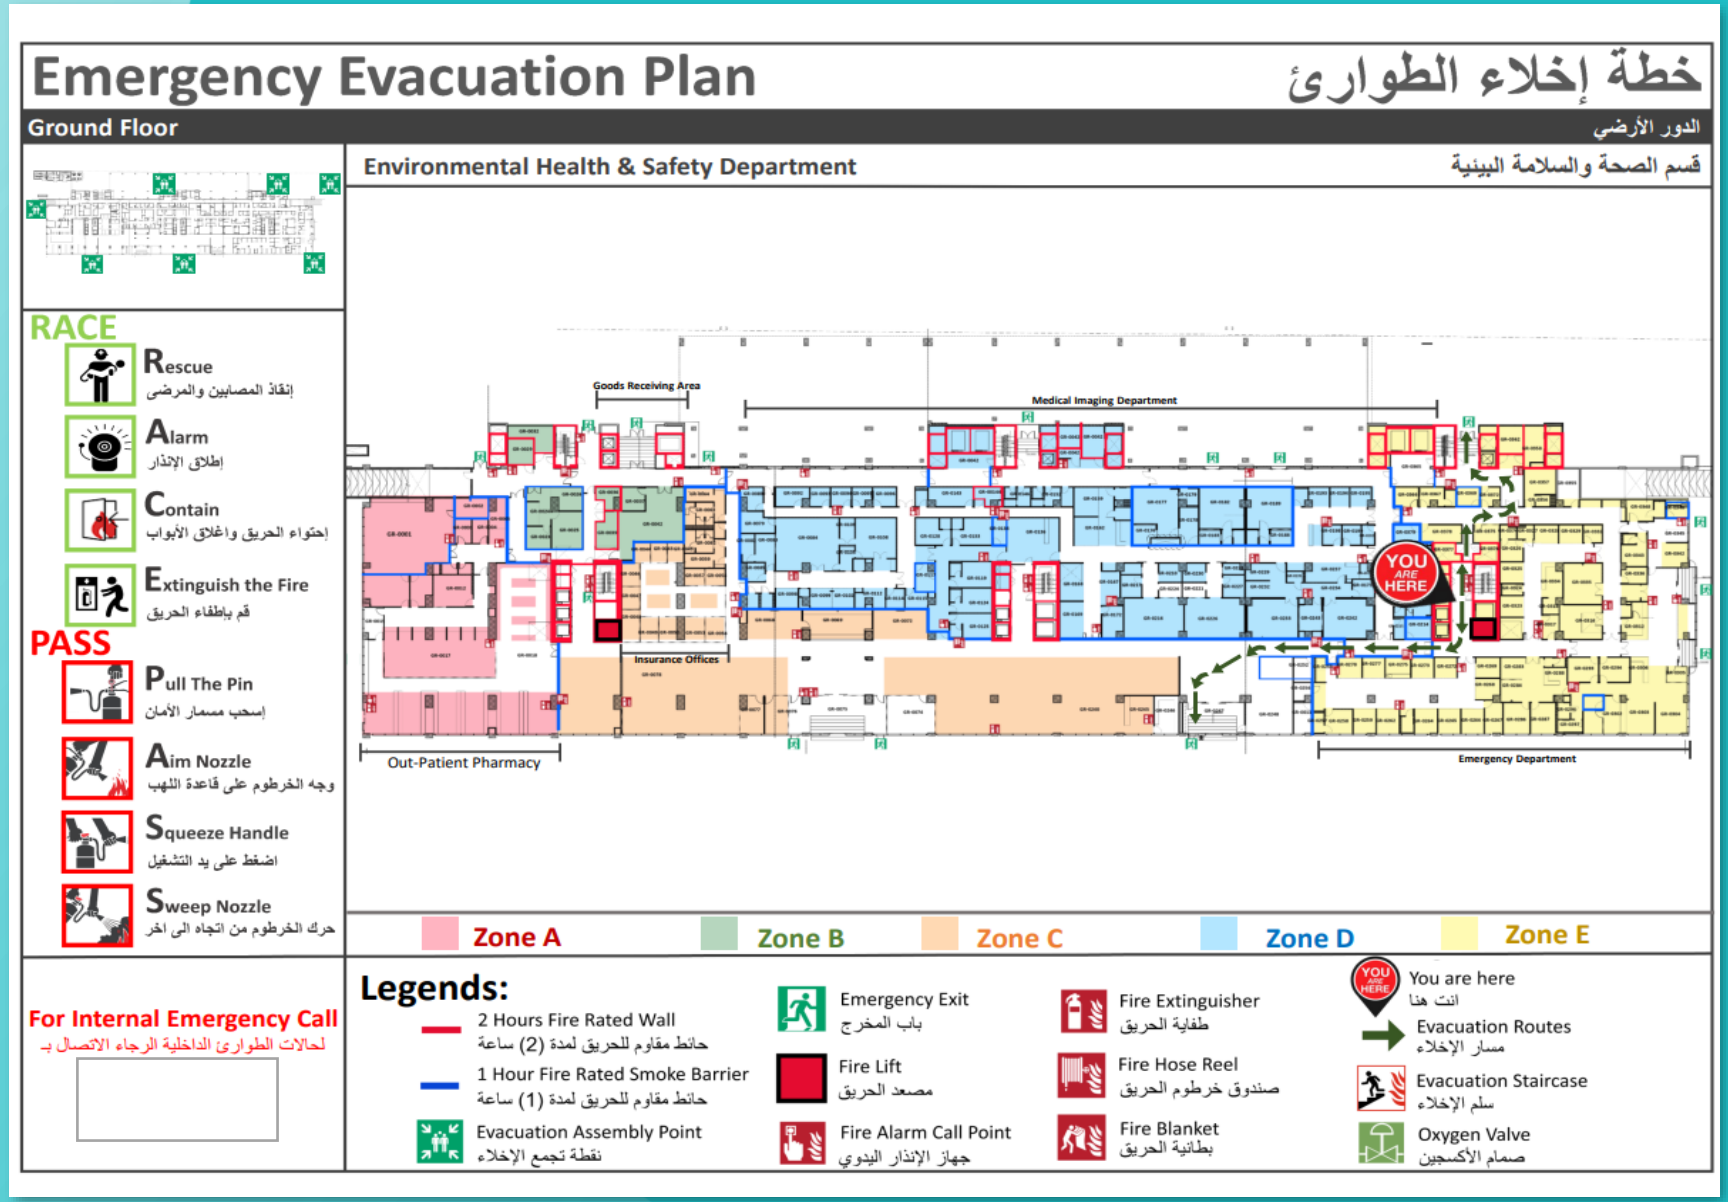

Extinguish / Evacuate!

Types of Evacuation

- Horizontal Evacuation
- Vertical Evacuation
- Full Evacuation

Evacuation Tools

Evacuation Mattress

Evacuation Chair

Baby Mover/Apron

Newborns Evacuation Chair

Assembly Points

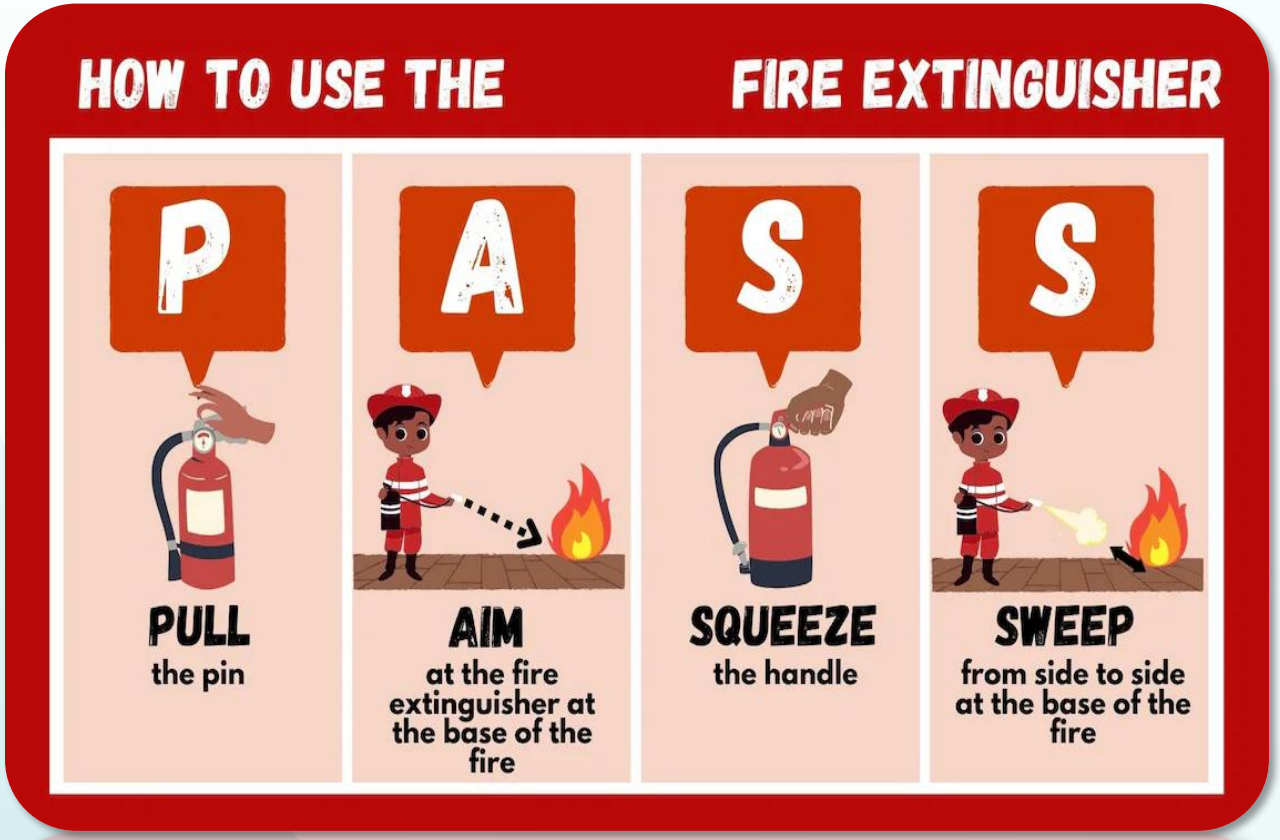

Inside the Hospital

Outside the Hospital

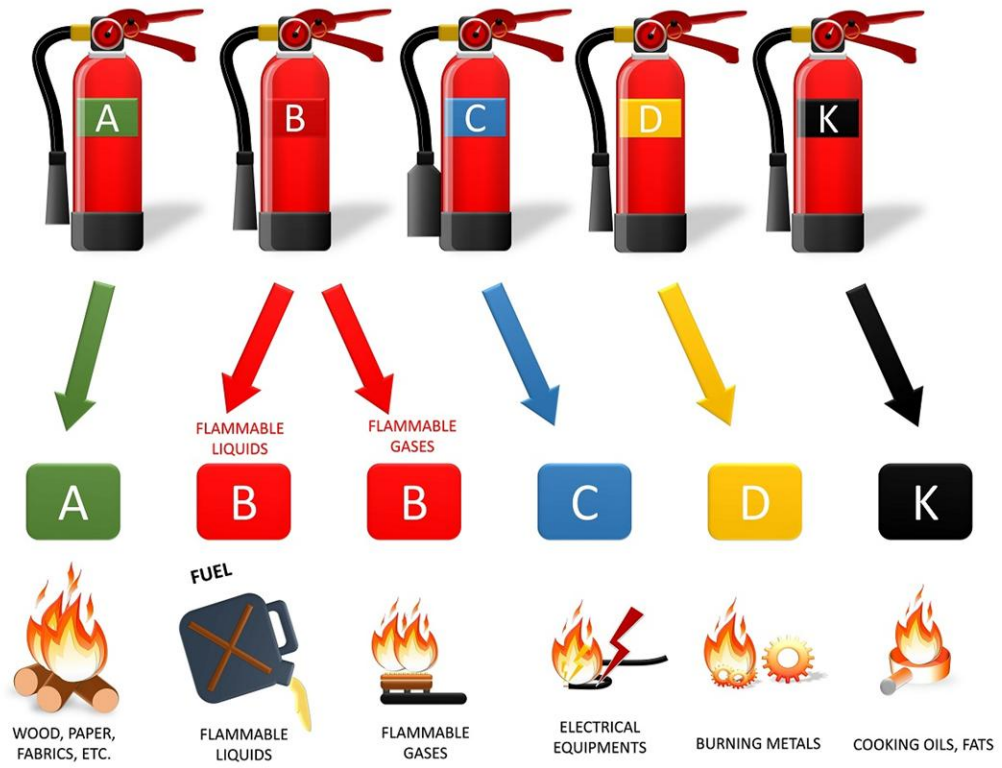

How to Use the Fire Extinguisher?

INSTRUCTIONS
1
PULL RING PIN.
2
START FROM 8 FEET BACK.
AIM AT BASE OF FIRE.
3
USE EXTINGUISHER
UPRIGHT.
SQUEEZE THE LEVER.
4
SWEEP FROM
SIDE TO SIDE.
8 FEET
ABC DRY CHEMICAL

Fire Extinguishers Types

Fire Extinguishers Types

Fire Alarm Equipment's

Smoke Detector

Heat Detector

Call Point

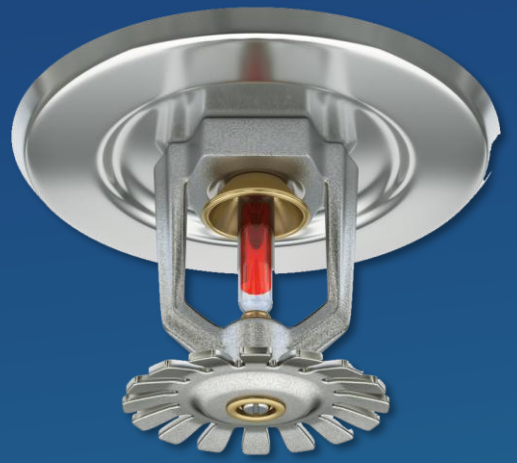

Firefighting Equipment's

Fire Blanket

Fire Hose Cabinet

Sprinkler

Hazardous Materials (HAZMAT)

Any Substances or Agents, if released or misused,
it can pose a threat to the environment, life or health.

Code Orange

Leakage or release of hazardous substances:
Biological or Chemical spill.

If there is a spill of hazardous materials, we must secure the spill & remove it immediately.
if it is a Minor Spill: less than 1 Liter "and it is not highly toxic, reactive, or explosive", then call the cleaner supervisor with specialized trained team to clean up the spill. But if the spill more than 500 ml or "the substance is highly toxic, reactive, or explosive", then activate Code Orange.

GHS Pictograms

SKULLS & CROSSBONES

Acute toxicity (fatal or toxic)

CORROSION

Skin corrosion/burns
eye damage
corrosive to metals

EXPLODING BOMB

Explosives
self-reactives
organic peroxides

FLAME

Flammable / pyroghorics /
self-heating /
emits flammable gas /
self-reactives /
organic peroxides

EXCLAMATION MARK

Irritant (skin,eyes) /
skin sensitizer / acute toxicity /
narcotic effects /
respiratory tract irritant /
hazardous to ozone layer

HEALTH HAZARDS

Carcinogen /
mutagenicity /
reproductive toxicity /
respiratory sensitizer /
target organ toxicity /
aspiration toxicity

GAS CYLINDER

Gases under pressure

FLAME OVER CIRCLE

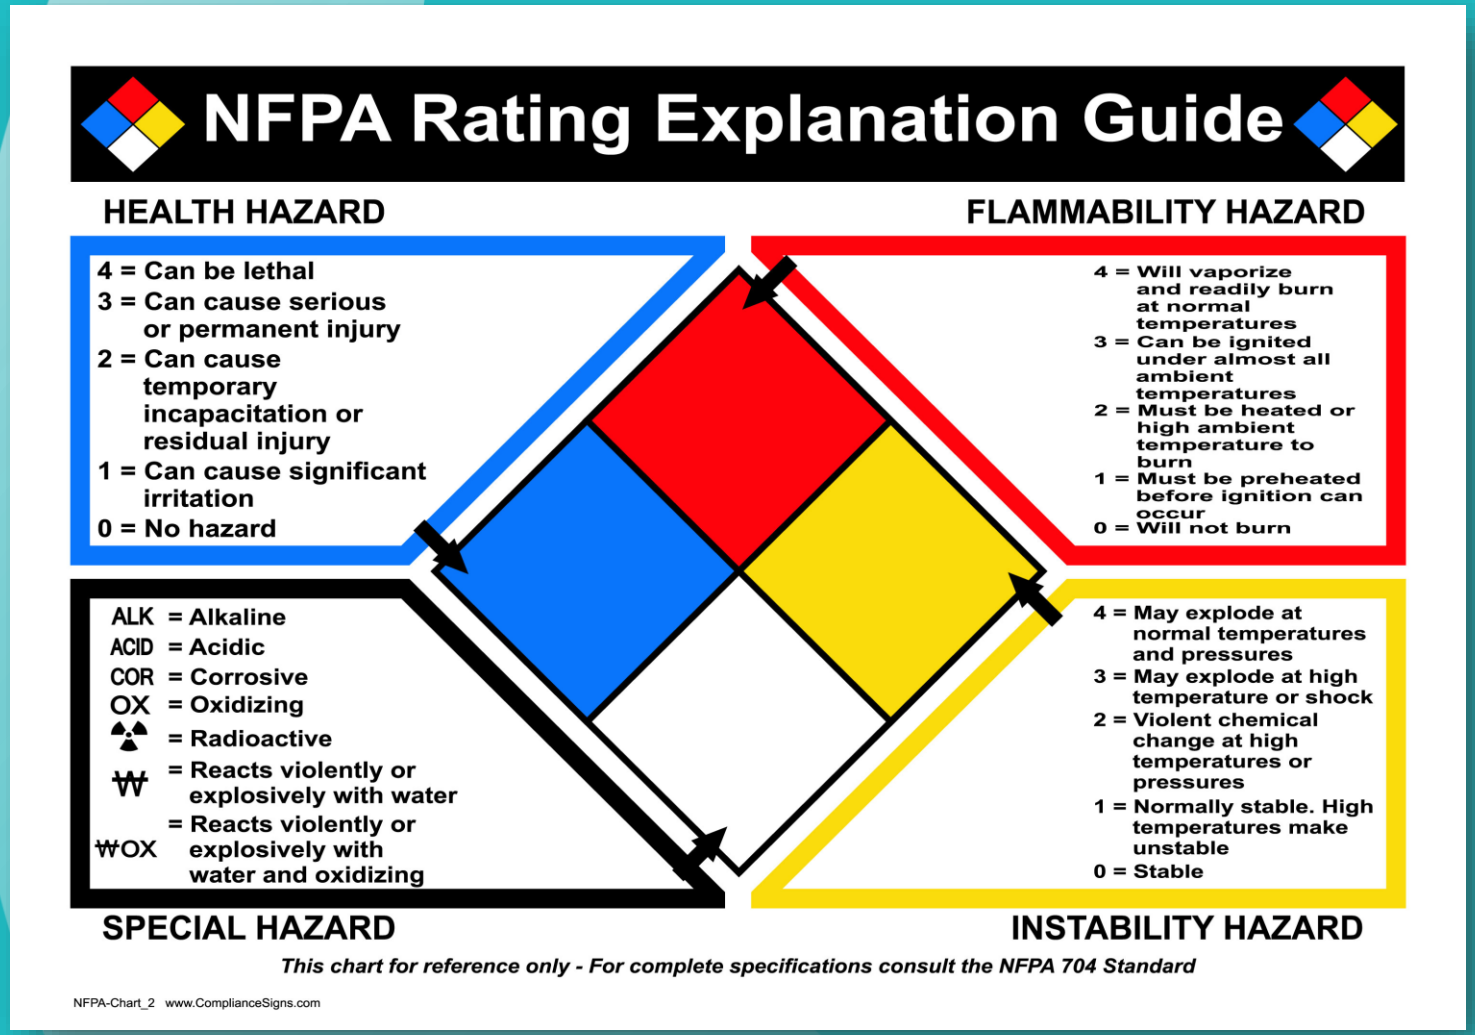

Oxidizers

ENVIRONMENT

Aquatic toxicity

What is NFPA diamond?

List Of Hazardous Chemical in the Department

Location: Radiology

Date: Sep 2025

SN	Name of the chemical	Hazard Classification	Purpose of use	Available Q	Volume	Max Q	SDS	NFPA Rating			
								H	F	R	SH
1	**Soft care med H5** (1.3L)	Highly flammable liquid and vapor. Irritating to eyes and skin	Hand disinfectant	25 Bottles	1.3 L	50	✓	2	3	0	
2	**SOFT CARE PLUS FOAM H42** (1.3L)	eye irritation	Foaming antibacterial hand soap	20 Bottles	1.3 L	30	✓	1	0	0	
3	**SPI- IPA 70%** (250ml)	Highly flammable liquid and vapor	Disinfectant	15 Bottles	250 mL	35	✓	2	3	0	
4	**ISOPROPYL ALCOHOL WIPES** (100 wipes)	FLAMMABLE	Disinfectant	5 bottles	100 wipes	10	✓	2	3	0	
5	**SEPTIDINE 500ml**	FLAMMABLE Aerosols, Eye Irritation	Surface Disinfectant	5 bottles	500ml	10	✓	1	3	0	
6	**Safe Spray**	Flammable skin burns and eye damage. toxic	Cleaning surfaces	4 bottles	750 mL	10	✓	3	2	0	cor
7	**LIMISAN PRO**	Causes serious eye irritation.	Medical adhesive remover	15 bottles	50 mL	30	✓	1	3	0	
8	**Alcohol Prep Ped**	Flammable liquids	ntiseptic/disinfectantA	3 boxes	200 SWABS	5 boxes	✓	2	3	0	
9	**PRE-Klenz** (600ml)	Not classified as hazardous	Instrument transport gel	2 bottles	600 mL	5	✓	0	0	0	
10	**Hexifoam-4** (chlorhexidine gluconate 4% solution)	cause irritation in hypersensitive individuals	Antibacterial hand	1 bottle	550 mL	2	✓	2	1	0	
11	**Ultrasound gel** (250ml)	Not classified as hazardous	Scans	30 bottles	250 mL	100	✓	0	0	0

Eye Wash Stations

Spill KIT:

Chemicals Spill Kit

Biological Spill Kit

A Spill Kit is a set of equipment that is designed to remove hazardous substances quickly and efficiently.

How to use the chemical spill kit?

Hospital Regulations

- **No Smoking or Vaping.**

- **Do not use Candles.**

- **Do not use unauthorized Extensions.**

- **Do not use Heaters.**

- **Do not use Electrical Boilers inside offices.**

- **Do not put food inside the Microwave for too long.**

Thank You!
